

# NL-FMC

*Human dimension of technology*

该设备可自动完成塑料鞋楦内部的钻孔与卡圈插入工序。

主要特点如下：

- 自动计算钻孔深度
- 自动计算卡圈插入深度

## 技术参数 / TECHNICAL DATA

|                                                 |                   |
|-------------------------------------------------|-------------------|
| 最大产能/<br><i>Maximum production<br/>capacity</i> | 90 双/小时<br>90 p/h |
|-------------------------------------------------|-------------------|

|                                         |      |
|-----------------------------------------|------|
| 最大消耗功率/<br><i>Max power consumption</i> | 4 Kw |
|-----------------------------------------|------|

|                      |         |
|----------------------|---------|
| 重量/<br><i>weight</i> | 1400 Kg |
|----------------------|---------|

The machine automatically performs the drilling and ferrule insertion operations inside the plastic last.

Key features include:

- **Automatic calculation of drilling depth**
- **Automatic calculation of ferrule insertion depth.**
